About Heartland Health Services:
Since 1991, Heartland Health Services has been providing health care to individuals and families. In 2004, Heartland Health Services became a Federally Qualified Health Center; now serving approximately 23,000 patients in Peoria, Tazewell and surrounding communities. For more information, visit www.hhsil.com and connect with us on Facebook and Instagram.

About Peoria City/County Health Department
Nationally certified, our health department promotes healthy lifestyles and protects the health of the community. Because of what we do, the foods we eat are safer, more babies live beyond their first birthday, and children are healthier due to childhood immunizations. Established in 1938, we have worked to prevent disease and provide for a safe environment. For information on public health issues, visit our website at www.pcchd.org or connect with us on Facebook.
