No Child Is Safe! from the damages of lead exposure

Take Steps to Lower Lead Risks

- Wash hands and toys often
- Do not let children play near bare soil or chipped paint
- Take off shoes before entering the house
- Give foods high in calcium and iron
- Do not store food or drinks in open cans
- Do not use hot tap water for cooking or formula
- Use a damp, soapy mop or rag to clean floors and window frames/sills

Effects of Lead Poisoning

- Brain Damage & Learning Problems
- Hearing Problems & Decreased Language Skills
- Digestive Issues
- Stunted Growth
- Shortened Attention Span
- Delinquent Behavior
- Hyperactivity

Contact your child’s doctor or call 679-6068 to schedule a lead screening.
